We believe our customers deserve products and services of high quality. Because of this belief, we will endeavor to measure our customer's needs and make every effort to satisfy them unconditionally.

The Currie Golf Course has recognized it as a responsibility to provide our customers an environment conducive to warm social gatherings, recreation and camaraderie. As the service of beverage alcohol relates to this activity, we believe it is our responsibility to maintain this environment and be considerate of the best interests of our customers.

To assure this is not breached; the Currie Golf Course is committed to act responsibly in the sale of beverage alcohol and is dedicated to the ongoing education of our service staff in matters relating to alcohol service. In this way, we can continually provide quality service.

Because of our commitment, we maintain it is our right to refuse service to anyone who may jeopardize his or her safety and the safety of others as a result of alcohol consumption. While we believe our customers possess a high degree of self responsibility, we maintain this right on their behalf and the behalf of our community.
